Collaboration

Episode 5

Andy McGovern

Sr. Principal Consultant
erwin DM

andy.mcGovern@quest.com

The Quest logo, featuring a stylized blue arrow pointing right, followed by the word "Quest" in a bold, dark blue sans-serif font. The background of the slide features a futuristic robot running through a field of blue digital cubes and lines.

Erwin DM: Now More Powerful

- At the core of the Workgroup Edition is the **Mart Portal**, a suite of features designed to enhance collaboration and control:
 - **Model Access Controls**
 - **Automatic Versioning**
 - **Collaborative Modeling**
 - **ER360 Web Portal**
- With these tools, you can start with your baseline models and easily adapt them as your technology needs evolve—making your workflow more flexible, efficient, and aligned with your team's goals.

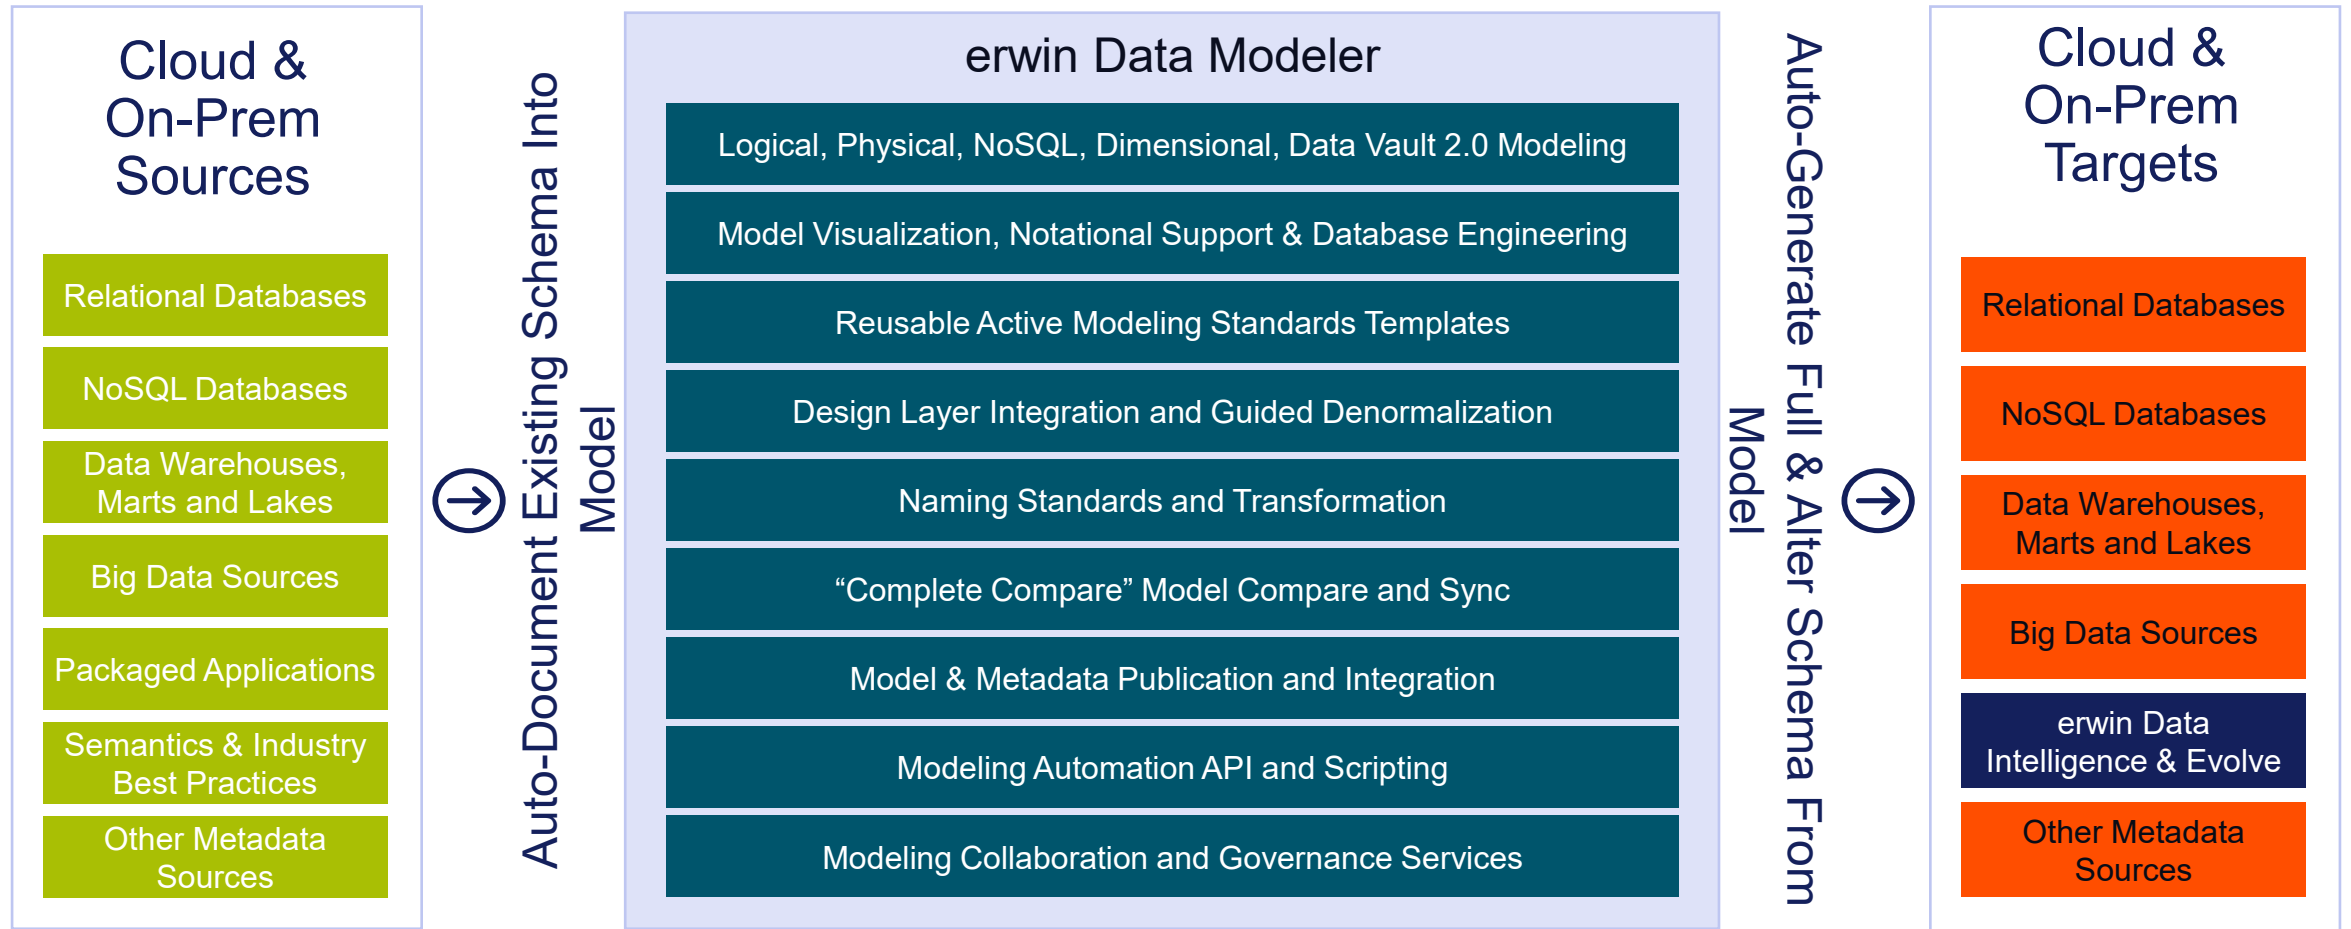

Data Models drive today's successful data initiatives, shaping how organizations harness information. Erwin DM Workgroup Edition enables collaborative modeling and reporting via ER360, helping teams fully leverage their data's potential.

Today's Topics

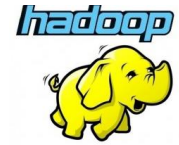

- Concurrent/collaborative modeling
- The process of conflict resolution in collaborative modeling.
- Techniques for comparing different versions.
- The methods by which models are harvested into ER360.
- Capabilities available to end users in ER360.
- Utilizing ER360 to enhance team collaboration.

Wizard Overview

Complete Compare Options Overview

This page gives an overview of the complete compare options.

Compare Level: Database

Overview

You can click on the Compare/Finish button at any time to begin Complete Compare with your current selections.

You can select the models to compare using the wizard. Click on the Left Model button to load the left side model, and on the Right Model button to load the right side model.

You can click on the Type Selection button to select any specific types of objects to be compared.

You can select the specific objects to compare from the left/right models using Left/Right Object Selection.

You can use Advanced Options to further customize the compare results.
