

Quest Data Intelligence 16.0

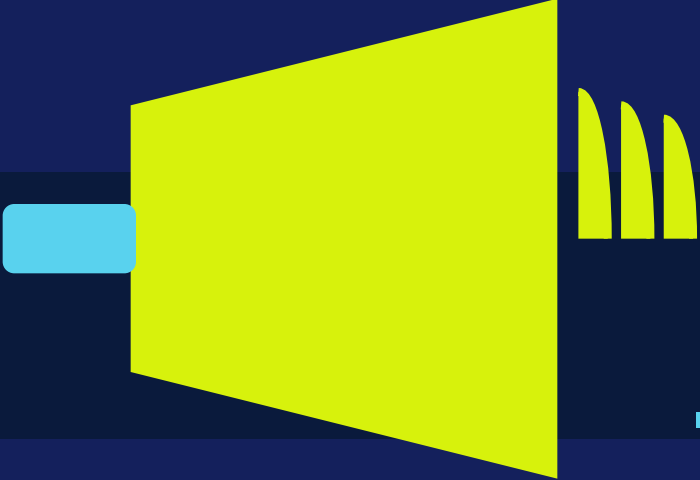

The next era of AI Governance

Glenda O'Keefe
Field CTO

Kartik Sridhar
Product Management Director

A large, bright yellow megaphone icon with a blue handle, positioned on the left side of the slide. It has three curved lines behind it to indicate sound or vibration.

WE HAVE SOME

EXCITING NEWS!

Stay tuned for the big reveal →

A New Name, the same **TRUSTED** solution

PREVIOUSLY

erwin[®]
by Quest

NOW

Quest

erwin Data Intelligence is now Quest Data Intelligence

Same product. Same team. Same trusted experience.

Two innovations. One platform.

1

QuestAI Semantic Assistants

Plain-English access to your entire data estate — catalog, lineage, glossary & ownership, marketplace, and stewardship, all in one conversation.

2

AI Native Policy Manager

AI-generated policies enforced natively in Snowflake & Databricks — classification, masking, and retention without writing a rule by hand.

Quest Data Intelligence • ONE PLATFORM

QuestAI Semantic Assistants

Plain-English access to your entire data estate - all in one conversation.

5+ Specialist QuestAI Assistants

Universal Semantic Assistant

The umbrella across every discipline - powers natural-language access through all specialists below.

Catalog

Lineage

Glossary &
Ownership

Data
Marketplace

Stewardship

AI Native Policy Manager

AI-generated policies enforced natively in **Snowflake & Databricks** - **classification, masking, and retention** without writing a rule by hand.

3

Policy Types

Classification • Masking • Retention

2

Native Enforcement Platforms

Snowflake • Databricks

A short walkthrough of:

QuestAI Semantic Assistants

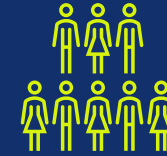

AI Native Policy Manager

Key Takeaway for QuestAI Context Assistants

Save Time. Remove Frustration.

Get instant answers - no chasing data experts.

Everyone Can Use Data.

Empower all users - not just the technical team.

QuestAI Context Assistants turn data understanding into everyday language.

Key Takeaway for Quest Data Intelligence Policy Manager

Smart Compliance Assistant

- A smart compliance assistant
- Turns weeks of work into hours and minutes
- Empowers every user - technical and non-technical

Automated Protection

- Rules enforced at point of data access
- Automatic enforcement
- Reduces business risk and compliance gaps

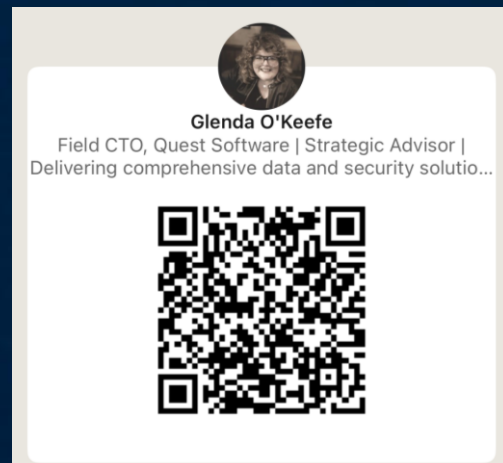

QuestAI Policy Manager turns complex data protection into an automated, always-on control system.
