Greif simplifies and strengthens Active Directory security

Manufacturing

Country: **United States**

Employees: **>14,000**

Industry: **Manufacturing – packaging and containers**

With operations at 248 facilities in 37 countries, Greif is an industry leader in the manufacturing and distribution of industrial packaging products and accessories.

Greif implemented Active Roles and Change Auditor together to protect its Active Directory and ensure proper granting of permissions for managing Active Directory objects.

ONE IDENTITY
by Quest

The Greif experience

"We've been using Active Roles for more than 10 years. We believe that automation is key in working more efficiently as an organization…. the combination of Change Auditor and Active Roles makes it actually perfect. Change Auditor gives you that extra layer of protection to protect highly sensitive Active Directory groups."

- Luc de Smet, Senior Manager of Digital Workspace Solutions and Security Infrastructure Team, Greif

Benefits

- Automated, centralized, consistent permissions management
- Strong protection for important Active Directory groups
- Single-click AD account deprovisioning and restore
- Complete transparency with history logs

Solutions at a glance

- [Active Roles](#) for simplified, automated AD security
- [Change Auditor](#) for real-time threat monitoring and activity tracking
